

# Cariboo Mountains High Country Wilderness & Wildlife Adventure

**Come and connect with the wild side of nature in the high country of the Cariboo Mountains. Feel the freedom as you breathe in the fresh pure mountain air. Your adventure with knowledgeable, caring guides will take you into the high alpine, the 'land beyond the trees', where you will see wildlife and experience the life of the wild mountain dwellers.**

**FROM JUNE to MID-AUGUST**

**2 days /3 nights or 3 days / 4 nights**

Travel the backcountry and mountain valleys and peaks with Gary Zorn who has a lifetime of grizzly bear and wildlife experience and knowledge. Gary's passion for the 'big bears' has led him into the backcountry for many years where he has observed the bears, their habits and habitats. This has provided him with a wealth of knowledge and much entertainment. You will learn much about the bears that few people have had the chance to experience.

Native wildlife in the area also includes mountain goats, mountain caribou, mule deer, moose, black bears, and a host of smaller furbearers such as otters, beavers, pine martens, chipmunks, squirrels and more. This is one of the few places on earth where this cycle of life remains in tact in the wild - untamed and undisturbed.

Here are some of the exciting things you can experience.

- Alpine hiking - with our trail systems a short hike puts you on the peaks and in high mountain valleys in an hour or less
- Wildlife viewing (grizzly, black bear, mountain goat, caribou, moose, wolf, mule deer, lynx, wolverine)
- Grizzly bear habitat and bear dens
- Ancient forests and wetlands (1000 year old western red cedars in this rare and unique interior rainforest)
- Wildlife calling
- Wildlife tracking
- Birding (eagles, osprey, herons, mountain dwellers, migratory birds)
- Inspirational guides and speakers
